EXHIBITION GENERAL

With the arrival of the key year 2020 for environmental improvement, supported by new technique is becoming more and more important in Chongqing that a key city of environmental governance among 113 cities of China. The 3rd International (Chongqing) Industrial Water Treatment and Waste Gas Treatment Technology Expo is jointly held by Chongqing Environment Protection Industry Association, Chongqing Environmental Protection Enterprise Chamber of Commerce, Wise Exhibition (Hongkong) Co., Ltd and Wise Exhibition (Guangdong) Co., Ltd. New technologies and equipment of industrial water treatment, waste gas treatment, solid waste treatment and environment monitoring will be displayed in the Expo which is a platform for communicating and displaying with high standard, high grade and high quality for rapid development of southwest environmental protection industry. Several technical seminars, product launches and trade fairs will be held at the same time. Moreover, elites from various industries, research fields and academia will gather together to grasp developing tendency, explore innovative solution and assist enterprises to expand marketing channels.

EP EXPO is the largest, the most professional and the most popular environmental protection technology exhibition in southwest China. Last session was held in Chongqing International Expo Center from May 5-11. EP Expo 2018 continued to attract visitor attendance with a record breaking of 16,000 professional buyers, including CHANGAN, HYTAK, Foxconn, Siemens, Honeywell, Mitsubishi Electric, Commins, General Motors, Haier, CNOOC (China National Offshore Oil Corporation), Chongqing Changshou Sewage treatment plant, Dongfeng Automobile, Chongqing Iron & Steel (Group), Lang Ke, etc. It also attracted about 300 famous corporations from home and abroad to participate, including THE NEW YORK BLOWER COMPANY, SEAC, Keruisi Fan, SINO, Wuxi Gongyuan, Foshan Jinkaidi Filtration Equipment Corporation, BELAM, Nanhai Pump Factory, HSJ Environmental Protection, etc.

More than 100 government leaders, association leaders and business representatives attended the opening ceremony and had an in-depth communication with the exhibitors during the period of tour pavilion, such as the deputy director Yu Guodong from Chongqing Environmental Protection Bureau, the deputy engineer Yang Jintian from National Ecological and Environmental Planning Institute, the president Ma Jie from Electroplating Branch of China Surface Engineering Association, president Fan Wenbin from Shanxi Environmental Protection Industry Association, general manager Mr. Norbert Fessler from the German Company Harter and general manager Mr. Frank Munk from the German Company Munk.

EXHIBITOR COMMENTS

Marketing Director
Wuhan Tianhong Environmental Protection Industry Co., Ltd.
Xiao Yong

As a pioneer of domestic environmental monitoring and analysis instrument market, WUHAN TIANHONG had been done its great job in the environment monitoring field. It is the first time that we take part in the EP EXPO and we have high regard for the committee that does well in promotion. Also, environmental protection expo is rare in southwest China. I wish the Expo better and better.

Director in Southwest China
Zhejiang Ligao Pump Technology Co., Ltd.
Mr. Cheng

We had been participating in two consecutive EP EXPOs and considered the 2019 EP EXPO as a big success because numerous professional visitors came to our booth for visiting and purchasing. The EP EXPO is our first choice among the west expos for there are very big breakthroughs in scale and professional audience in this session.

VOCs leader of Southwest China
Themos Fisher Scientific China Co., Ltd.
Cai Zongfu

As No.1 instrument company in the world, our company is committed to environmental protection for many years and we often take part in exhibitions. With rapid development in western China in recent years as well as Chongqing government strongly support, western China market is of great potential. Our products will serve to more western China customers by promoting in the expo so as to achieve our concept that to make the world safer, cleaner and healthier.

VISITOR COMMENTS

Chongqing Chemical and Pharmaceutical Holding (Group) Corporation
Zheng Hang

Attending the EP Expo benefits our 9 staffs a lot because it provides a communicating platform for environmental protection industry and it's a professional expo in every scale.

Beijing Research Institute of Chemical Industries
Senior Engineer Peng Lin

Our first time to participate in the EP EXPO whose scene atmosphere is good. Besides, it provides us a good opportunity to communicate via the forum. We wish EP EXPO better and better.

Chongqing Huineng S&P Technology Co., Ltd
Director of experimental center Yang Xu

You organize technology and facilities exhibition can not only show us your attention to technology but also let us know your excellent abilities on organizing and propagating. This expo provide us who is the third party technology service a great reference and motivation on environmental monitoring. Thumb up for you!

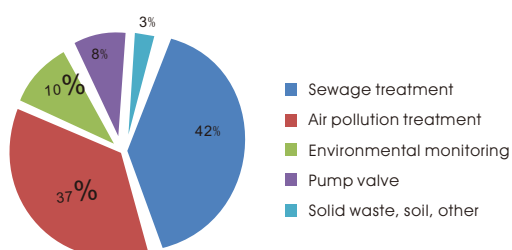

Changan Ford (Chongqing)
SAT Engineer Zhu Liang

A lot of suppliers show their new technologies and new progresses in the expo. There are some wonderful concurrent events of advanced technologies and we benefit a lot from the lively presentation given by the conference lecturers. I wish you a successful trade fair.

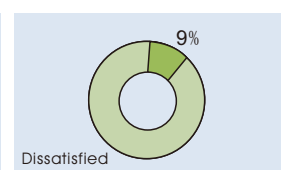

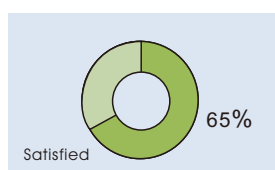

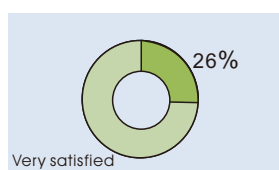

EXHIBITOR ANALYSIS

EXHIBITION ADVANTAGES

1

Cling to the national policy, grasp the industry trends, and fit the needs of upstream and downstream enterprises

2

Professional Expo is not to be missed in southwest China —

Chongqing Environment Protection Industry Association and Chongqing Environmental Protection Enterprise Chamber of Commerce will together to explore forefront technique and latest solutions of worldwide industrial waste water and waste gas treatment.

3

The key year for environmental protection —

Many famous companies from home and abroad take part in the Expo. New technology and new products will be intensively displayed.

4

Share high-quality professional audience——

In order to make a best platform for the exhibitors to set up brand image, make acquaintance with business partners and look for the terminal customers, organizer will widely publicize the exhibition in domestic and foreign media and invite professional international purchasing groups by the professional audience database.

5

Concurrent high standard & high quality conference ——

Industry specialists, heads of international environment protection organizations and government environmental protection department will be invited to make professional speeches on the latest trend of industry development, Innovative science and technology. These speeches provide you a quicker and more accurate way to learn about the policies, new trends of market , science and technology. This expo meets different needs of the industry at a time.

PROFESSIONAL BUYERS

A

Department heads of EPA, NDRC, Construction Committee, Designing Institute, Planning Bureau, Water Conservancy Bureau, Water Industry Association, Electricity Power Bureau, Municipal Corporation, Science and Technology Bureau, Forestry Bureau and Municipal units.

B

Leaders and engineering technicians from local environmental monitoring center, water supply corporation, sewage disposal work, environmental engineering company, Sewage abatement company, real estate developer, developer, hydropower installation company, industrial park hospital, school, hotel, etc.

C

Managers and buyers from industries of electric power, automobile, iron and steel, metallurgy, papermaking, brewing, pharmacy, printing and dyeing, spinning, machine, coal mine, food, beverage, building materials, electron, electroplate, chemical engineering, petroleum, natural gas, cement, glass, etc.

D

Agents , franchisers, investors and cooperative partners.

E

Relevant research institutions at home and abroad, environmental experts and scholars of colleges, domestic and foreign financial investment institutions and etc.

ALL-ROUND PROMOTION

Unite government environmental protection department, guild and International cooperation agency to send invitation letters and organize professional buyers.

Set up a purchaser invitation department and through the foreign branch office to directly invite clients who are from Hongkong, Macau, Taiwan, Southeast Asia, South Asia, Japan, Korea, Europe and America by phone, e-mails and visiting, etc.

About 500,000 entrance tickets and exhibition materials were sent in the industry fairs and forums ceaselessly.

Outdoor advertisements were put in some expressways, industry parks in Chongqing, Chengdu and other cities in southwest China.

Invite purchasers who are in the database by e-mail, message, wechat, weibo, QQ and new media.

Publicized on more than 100 media, including specialized magazines, websites, newspapers, web portals and TV for exhibitors to disseminate their brands.

EXHIBIT SCOPE

Industrial water treatment:

membrane separation technology and equipment, Industrial circulating cooling water treatment equipment, Boiler make-up water treatment, reclaimed water technology and equipment, Water saving and waste water recycling application equipment, MVR evaporator, desalter, Dosing and disinfection equipment, ozone equipment, crystallizer, heat-exchange equipment, centrifugal machine, filter plant, sludge treatment equipment, water quality monitoring and process control, water treatment materials and pharmacy, chemical water treatments, biological water treatment, heavy metal removal treatment, etc.

Waste gas technology:

waste gas treatment equipment, adsorption equipment, oil fume purifier, welding smoke purifier, chlorine leakage absorption and neutralization device, organic waste gas purification equipment, deodorization equipment and system, waste gas recycling equipment, clean coal and clean combustion technology equipment.

Atmospheric controlling treatment of Industrial smoke dust:

desulfurization and denitrification, dust removal technology and equipment, VOC disposal, dust remover, filter material, filter-bag, ash conveying device, electric control gear, flushing valve assy, detection and analysis instrument of gas pollution and tail gas, detection sensors of atmosphere, exhaust gas, lampblack, flue gas and hazardous gas, gas alarm, hazardous gas detection equipment and other related equipment.

Indoor air purification:

industrial plant air purification equipment and system, fume purification equipment and system, industrial plant ventilation system, photocatalyst, etc.

Solid waste disposal equipment:

waste collection, classification, compression technology and transfer vehicle, equipment of waste landfill, incineration, biochemical treatment, technology of detecting, monitoring, recycling and reusing, waste, waste fermentation, old metal, tires, plastics and other recycling machine and technology, solid wastes integrated utilization equipment and technologies.

Energy saving equipment and resources comprehensive utilization equipment:

frequency converter, energy-efficient equipment, noise control equipment, ventilating device, utilization and recycle of residual heat, residual energy and residual pressure, cogeneration equipment, energy saving of coal-fired boiler, biomass energy, waste recycling.

Environment monitoring:

monitoring equipment of water, air, environmental pollution emergency monitoring system, big data and ecological environment informatization, laboratory instrument, etc.

CONCURRENT EVENTS

- 2020 New Technology and New Product Release Conference of Industrial Water Waste Gas Treatment
- 2020 Evaporation Technology Development Seminar
- China Japan Photocatalyst Technical Seminar
- Sewage Plant Renovated and Standard technology Seminar
- Waste Water, Exhaust Gas and Waste Residue Management and Technological Development Seminar of Pharmaceutical Companies

- Business Matching Session of Environmental Protection Industry in Southwest China
- 2020 Green Chemical Industry Development and Technique Renovation Seminar
- 2020 Forum of Comprehensive Pollution Control in Chemical Industrial Park
- 2020 Pollution Control Technology Seminar of Organic Exhaust Gas (VOCs)
- 2020 Energy Saving Renovation Forum

PARTICIPATION FEE

Booth Fee (10% extra charge for double opening booth)

International Standard Booth 3 * 3 = 9 m ²	RMB9800/Booth	USD2250/Booth
Raw Space Minimum 36 m ²	RMB1088/m ²	USD250/m ²

Advertising on Exhibition Catalogue:

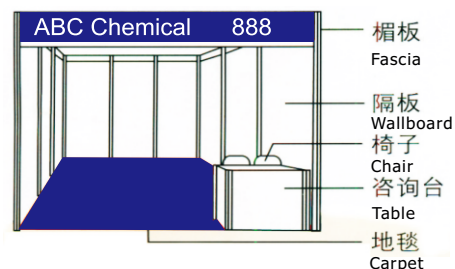

Front cover:	Back cover:	Second cover:	Inside back cover:	Full color page:	Technical promotion meeting:
¥19800	¥15000	¥18000	¥9800	¥4800	¥4500

Please contact us if you want to co-organize and sponsor the concurrent events.

Standard booth facilities:

Facilities for the standard booth: three wall boards (two wall boards in the corner), Chinese and English fascia, a negotiating table, two chairs, carpeted floor, two spotlights and a dustbin.

Raw space fits nothing and charge ¥28/m² for management fee.

Organized by UFI member, professional service and results are trustworthy.

As the most important international exhibition organization in the world by far, UFI (The global Association of the Exhibition Industry) founded in Milan, Italy, 1925 and headquarter in Paris, France. Exhibition which held by the company in its at least one of them accepted by UFI is likely to be accepted as full members. UFI has strict requirements for the exhibition company who apply to join, it judged by scale of exhibition, exhibition history, overseas exhibitors ratio, proportion of foreign audience and so on.

After a year's review on a slew of Expos that held by WISE, WISE formally becomes a full member of UFI in 2012 and accepts its rigorous qualification check each year.
